

GAME 21: END ZONE GAME

OBJECTIVE:

To develop passing and support, forward and diagonal passing, forward and diagonal runs.

ORGANIZATION:

Teams of 4 to 6 players play in a field that has 2 end zones.

A goal is scored by passing the ball into the opposite end zone. The ball cannot be dribbled into the end zone.

Players are not allowed to wait in the end zone for a pass. In other words, a teammate can only enter the zone at the same time as the pass is made into that zone.

For a goal to count, the player receiving the pass in the end zone must control the ball before it goes out of the zone.

Defending players are not allowed in the end zones.
